

A few years ago in touch with a distant cousin re my dad's side of the family, still living in Lancashire as far as I know not been in touch for a couple years but they were the family who I had the guy in France helping out, the only one who did not want to get in touch with everyone not just me was a distant cousin to my dad who lived on the same street as our family. Years later I used to do Meals on Wheels with her mum!

Re My Heritage and DNA which I passed on to same, checking a close match and looking onto the tree found the cousin living in Southport, but is still not wanting to be in touch 3 years older than me and going off this f/t is still alive. What I realise, when getting no feedback, is that when questioned or look into they like me now have not renewed their Membership..

Still look into my g/f Connell Military but no further details found, found his brother who seems to have been in the same Military but for misconduct dismissed, realise why a contact said her g/mother destroyed anything to do with James the brother and her husband who I think just left and maybe remarried.. This contact through M/H and lives in the Oldham area, but after I suggested meeting up not heard since, also no longer a member...
